Saddle Seat

The Saddle seat, part of Humanscale's award-winning Freedom seating line, is the most comfortable and versatile stool ever made. Its unique, triangular cushion encourages users to sit in a "saddle" posture, which lowers the thighs, opens up

the hips and puts the spine into a healthy lordotic curve. The "saddle" posture also reduces pressure points for long-term comfort and allows users to get closer to their work. It's simply one of the most comfortable and healthy ways to sit!

Saddle seat with optional foot ring and high cylinder

Features

- Uniquely contoured triangular cushion allows multiple sitting positions for ultimate comfort.
- Height adjustable pneumatic cylinder accommodates a wide range of users and tasks.
- Optional foot ring and high cylinders for specific applications.
- Available in a wide variety of textiles, including wipeable vinyls for lab, cleanroom and healthcare use.

Creating a more
comfortable place
to work

**Ultimate Versatility.
Ultimate Comfort.**

The Freedom Saddle is equally at home in an office, lab or factory and its multi-use cushion can accommodate the many sitting postures required for countless applications. Whether it's used all day long or tucked under a desk for impromptu, in-office meetings, the Saddle offers a unique and comfortable seating solution unmatched by any other stool.
